PLAN COMMISSION

Re-refer to the PLAN COMMISSION

The Plan Commission held a discussion of the Commercial/ Mixed-Use District sections, Employment District sections and Special District sections of the draft Zoning Code.

- Staff explained the purpose of the new yellow copy of the zoning code. It was decided that the Plan Commissioners will work off the white copy at the September 23rd working session.
- Discussion about the zoning code introduction process.
- Why are co-ops and co-housing conditional uses?

Commercial and Mixed Use Districts

- How does the design waiver process work?
- What does "infeasible" mean?
- Review big box standards to see if text from those standards can be added to Design Standards provisions.
- Entrance orientation: Are signs allowed in entries?
- Door and Window Openings: define "storefronts". Require 60% - 100% glass? Do the numbers in the draft code work? Increase retail percentage.
- Change "windows and doors" to "windows and/or doors".
- How would advisory design guidelines be used?
- Do door and window openings standards create non-conforming buildings?
- Screening of rooftop equipment: Can additional screening standards be added for solar apparatus.
- Mixed Use and Commercial charts: Allow multi-family >8 units in Neighborhood Mixed Use District?
- Is there a maximum number of units in mixed use buildings?
- What is the difference between the mixed use districts?
- Where would adult entertainment uses be allowed?
- Where would housing for the homeless be allowed?
- Allow theaters and concert halls as a conditional use in the Neighborhood Mixed Use district?
- Why are ice machines and soda machines not allowed anywhere except in auto related uses?
- Are the Neighborhood Mixed Use building standards required or variable?
- Pg 49 (c): Additional height requires a conditional use permit.
- Allow buildings higher than 5 stories in the MXC and CC-T districts?
- How do height limits correspond to prescriptive height limits in adopted city plans?
- Do we want to be too restrictive with building heights?
- How as the decision for a 5 story maximum height limit decided?
- How often should the zoning code be updated?
- The statement of purpose of the Commercial Corridor Transitional District is not clear. How is it different than CC-D? (CC-D doesn't have frontage requirements and parking location requirements).
- Add something from CC-T to CC-D district or maybe add something from the big box ordinance.
- Increase the size of buildings allowed by right in the CC-D district?
- Is a rear yard setback necessary if an MXC backs up to another mixed use district?

Employment Districts

- Incorporate into the Traditional Workplace and Employment Center districts entrance orientation standards like on page 39 in the mixed use districts?
- Change the "Traditional Workplace" district to "Traditional Employment" district?
- What is a "call center"? It is a telecommunication center. Need a definition for telecommunication center. Should they be allowed in the commercial districts?
- Why not zoning everything Suburban Employment (SE) district rather than Suburban Employment Center (SEC) district? Why perpetuate SEC district development patterns? Height is the only difference between the SEC district and the SE district. The SEC district allows higher bldg the SE district.
- Parking location requirements are also SE - SEC district issues.
- How can we foster transitions from SEC areas to SE areas?
- Why maximum floor area ration of 1.0 in the SEC district?
- Allow higher buildings in the Traditional Workplace and SE district?
- What are the primary differences between the Industrial-Limited and Industrial-General districts?
- Are propane tanks regulated by the zoning code? They can affect the location of other uses such as HUD funded housing. Should the zoning code address them in any way?

Special Districts

- Planned Development District (PDD) - Add requirement that sidewalks shall be provided

on private streets. Add to page 93 a new (f).
 - Add the same standard for mixed use and commercial districts-provide sidewalks along private streets where it makes sense.
 - Page 91, after (f): Who decides when the PDD can be used?
 - Campus Institutional district, page 88: Can campuses build without a conditional use permit if they have an adopted master plan? Is there a requirement for neighborhood input?

Staff initiated discussion by referencing the agenda packet's inclusion of previously summarized comments on the Zoning Code Rewrite from the Urban Design Commission's special meetings of May 27, October 28, and December 7, 2009, along with special meeting minutes of January 27, 2010, as well as comments forwarded by individual Commissioners (Harrington forwarded prior to the meeting of January 27, 2010 including comments from Slayton and Smith in response to issues discussed and requiring further attention at that same meeting). Staff noted that this information should be utilized as the basis for making an Urban Design Commission recommendation on the draft ordinance provisions.

Tucker reported on the joint meeting between the Plan Commission and the Urban Design Commission held on February 15, 2010; where a discussion on the UDC's role was discussed with an emphasis on the waiver process within the draft provisions relative to Commercial Mixed-Use And Commercial District Sections and Building Form Standards; UDC and PC versus just one body.

Discussion on Section 28.141(8)(a), Surfacing relative to permeable pavement provisions should be encouraged where permitted; regardless of the number of stalls.

Relative to Section 28.142(5)(b) references to the use of "weed barriers" should be eliminated; bad for the environment and underlying soils and be replaced with provisions for vegetative cover and organic mulches.

On a motion by Slayton, seconded by Rummel the Urban Design Commission recommended adoption and confirming amendments to the Madison General Ordinances as set forth in attached Exhibit F pursuant to Sec. 66.0103, Wis. Stats. to revise the City's Zoning Ordinance with all comments by the Urban Design Commission to be incorporated into a recommendation to the Plan Commission from the Commission's prior review of the draft provisions at its meetings of May 27, October 28, December 7, 2009 and January 27, 2010, including comments of record from the meeting of February 24, 2010 along with individual comments by Harrington, Slayton and Smith (forwarded prior to and following discussion at the January 27, 2010 meeting). Staff and the Zoning Code Rewrite Staff Team is to summarize and condense the collective recommendations prior to consideration by the Plan Commission of the draft ordinance provisions with the Urban Design Commission to be copied on the condensed recommendations with a report to the Urban Design Commission on the Plan Commission's action on its recommendations. The motion was passed on a vote of (5-0).

2/14/11	LANDMARKS COMMISSION	RECOMMEND TO COUNCIL WITH THE FOLLOWING RECOMMENDATIONS - REPORT OF OFFICER
	<p>Dan Rolfs presented the Request for Proposals documents and described the planning process and schedule. He explained that the James Madison Park Surplus Committee declared the buildings at James Madison Park to be surplus and the ground underneath the buildings to remain City property. The Real Estate Staff developed the RFPs and would like to get comments from City Commissions and Committee bodies. Mr. Rolfs explained that the buildings would be sold and the land would be leased on a 99 year lease. The buildings would have front yards, side yards and minimal rear yards for use by the building owner.</p> <p>There was general discussion about the proposed schedule and general issues.</p> <p>Alder Maniaci explained that the neighborhood would like to see private ownership for the buildings at 640 and 646 and a public use for the Collins House, but the proposals will be scored competitively. Alder Maniaci also explained that the scoring for the Collins House does not include points for keeping the building in its current location because it was never discussed to move it. The relocation of the buildings at 640 and 646 were previously discussed. Mr. Rolfs explained that relocation has a significant financial impact on the proposal scoring and a proposal that does not propose relocation will be favored.</p> <p>Rick Bernstein, 601 South Dickinson, registered in neither support or opposition. Mr. Bernstein explained that there are state laws that apply to the sale of these properties since they are in the Fourth Lake Ridge National Register Historic District. He suggested that sections 66.111 and 700.40 of the Wisconsin Historic Preservation Statutes be referenced in the RFP. He also suggested that tax credit incentives be referenced in the RFP.</p> <p>Jason Tish, Lafollette Avenue, registered in neither support or opposition. Mr. Tish reviewed the prepared comments from the Madison Trust for Historic Preservation and stated that the Trust is concerned about the relocation of 640 and 646 because significant exterior alteration is inevitable when relocation occurs.</p> <p>Mr. Stephans stated that a financially responsible proposal is in the best interest of the properties and their future care and maintenance.</p>
