RESOLUTIONS APPROVING THE CONSTRUCTION OF PUBLIC WORKS PROJECTS

13. **24974** Approving plans and specifications and authorizing the Board of Public Works to advertise and receive bids for Repairing and Sealing Pavement Cracks, Major Streets - 2012, Contract No. 6797.

The streets within the City of Madison's infrastructure are a considerable investment. Proper maintenance of pavements helps extend the useful life of a pavement. Pavements left in disrepair deteriorate and require resurfacing sooner than pavements that have preventative maintenance. The repair and sealing of pavement cracks extends the pavements useful life. Sealing of the cracks helps keep the underlying base dry providing better support for vehicle loading. Estimated cost of this project will be available at the Board Meeting.

Report by City Engineering.

29. **25004** Adopting a 10-Year Sidewalk Reconstruction Plan for the City of Madison.
Since 1969, the City Engineering Division has contracted for the repair of public sidewalk within specific areas which were established by the Board of Public Works and the Common Council. The plans were adopted and updated at 5-year intervals. On May 21, 1996, the Common Council adopted a 10-year plan for sidewalk repairs which included the entire City. For the purposes of planning and coordination with the Alders in whose districts the repairs have been undertaken, the original 10-year sidewalk plan was established using alder districts. The plan was updated by the Common Council on March 5th of 2002. This program has been revised to reflect the work which has been completed and to use the reconstituted alder districts which will be in service from 2012 through 2021.

The budget provides that the sidewalk program is for the repair of defective sidewalk, incidental curb and gutter, and the installation of new sidewalk as requested by property owners or as ordered by the Common Council. This program is also used to install handicap ramps at intersections. Periodic inspection and repair of City sidewalks is required in order to maintain them in a safe condition and reduce the chance of injuries.
